"Works Cited" Organizer

To create a Works Cited or Bibliography page, you need to keep track of certain details about each source of information you use.

GREAT ADVICE: DO IT AS YOU GO ALONG! This is one of those jobs that's easier done at the moment. It's always harder if you leave it to the last. Print this organizer and write the information onto in the chart below as soon as you have decide to use a source.

The top three rows are example entries.

Authors	**Item Title // Overall Title // Medium of publication (e.g. Print, DVD, Web, etc.)**	**Date of Creation & Date of Access (Internet sites) OR Place, publisher, © date** (all non-Internet sources)
Blankinship, Steve	"Unconventional Esp Technologies Being Tested" // *Power Engineering*; Oct2002, p7 // EBSCOhost MasterFILE Elite // Web	October 2002 // 18 March 2009
Dayley, Matt and Keith Holbert	"Electrostatic Precipitators for Power Plants" // *Electrical Engineering For Pollution Control* // Ira A. Fulton School of Engineering, University of Arizona // Web	1 April 2006 // 18 March 2009
Graf, Rudolf F. and George J. Whalen	*How It Works Illustrated: everyday devices and mechanisms* // Print	New York: Harper & Row, 1974
